INVESTMENT ADVISORY AND WEALTH MANAGEMENT SERVICES

Investment Advisory Services

The diagram to the left illustrates the fees charged for investment advisory services offered through a PPS Custom (Transactions) managed account. The fees are based upon your investible assets and include services such as portfolio development and management, asset allocation, and ongoing monitoring. In this model, the services include portfolio design, implementation, and monitoring.

Fee-Based Financial Planning and Wealth Management Services

As you strive to grow your personal net worth, the financial challenges you face may become increasingly complex. Often, the services you require to address these challenges fall outside the realm of basic portfolio design and ongoing investment management. The diagram to the left illustrates the fee structure for the services offered through financial planning. You'll notice that, as your net worth increases, so do the number of services and the time necessary to help you pursue your long-term goals. Please note that while all services listed are available, all services may not be necessary for each client. Services to be rendered will depend on each client's individual needs and circumstances.

** Note: In addition to the annual management fee, PPS Custom Program clients may pay transaction charges, administrative charges, and miscellaneous account fees and charges, as described in the PPS Client Agreement and Commonwealth's ADV Part 2A Brochure.*

Investment Advisory, Financial Planning, and Wealth Management Services in Detail

As you strive to grow your personal net worth, the financial challenges you face may become increasingly complex. As a result, each level of net worth may require a different mix of products and services to help you plan for your financial future. The services listed under each level are examples of what may be required for a typical client at the stated asset level. Not all services listed may be required for each client. Specific services to be rendered will be based on a client's individual needs.

Services listed under your asset level are included in your asset management fee. Services not listed under your level are available for an additional planning fee (your choice of retainer or hourly.)
